

Material
Al

Note
L = 11,9 m
Other lengths available on request.
Cross-section of the rigid bar:
1343 mm^2 copper equivalent.
For radii less than 100 m the rigid bar must be mechanically pre-formed.
Greasing sleeve 4632
Protective grease 4633
Protected by patent

Associated parts
Conductor rail support 2613 onw
Feeder clamp 3441
Section insulator 4261 onw
Interlocking joint (pair) 4612 onw
Conductor rail expansion joint 4622
Clip for earthing rod 6222 onw
Protecting plastic 4614

Weight
Wt (kg/m) = 6,17

Drawing number
963.01535, .01536

Ordering information
4611 Overhead conductor rail CR4
